

The Miner.

FRIDAY AUGUST 17, 1877.

Local Intelligence.

SATURDAY.

John Marion and family left today for Chino Valley.

Lester Jackson is visiting his many *cooks* in Prescott.

No telegraphic news to-day. We won't a new line, and that's what's the matter.

Miller's Iron Spring road will be paid for so soon as the bonds can be printed.

Mr. T. Fell, of Furgason Valley, a hard worker and large stock owner was in town to-day.

Messrs. Showers and Banghart are in town from Climo Valley, and Mr. Adam Scott from Furgason.

The Rattlesnake lead has been located in Black Canyon district by J. W. Swilling, which contains both gold and silver.

A new Superintendent of County Buildings is to be appointed to fill the place of J. W. Curtis, who was suddenly called away, leaving a vacancy.

Jack-of-all-trades has placed a new sign in front of the MINER office, with the words "Daily and Weekly Miner," which can be read a half mile off.

The morning service at the Marina street Church, to-morrow, will be the funeral service of Mrs. Lewis. All are invited to attend. Evening service at the usual hour.

Ed. Munro, who killed Wm. Rowe some three months since, near Camp McDowell, escaped from the jail at Phoenix last night. The Sheriff of Maricopa county has telegraphed Sheriff Bowers to look out for the fugitive.

The last we heard from C. M. Daley, who "bilked" us, was that some good fellow at the Peak mine had given him a severe whipping, and he had left for Salt River and the South. Look out for Daley!

There is bad odor coming into our saloons from the South, and our devil suggests that it may be the fragrance passing from the body of John Watson, at Tucson. Can it be?

Mr. Walker, living west of Mr. Simons' farm, two miles from Prescott, lost one of his children yesterday, with inflammatory dysentery. The little child was buried today in the cemetery east of town.

Mr. A. O. Noyes, who had the contract for building the fence around the school-house, has completed the same, and is now putting a coat of paint on, which preserves the timber from the elements and beautifies the premises.

Work on the Perry mine in Hassayampa District is progressing finely, and the ore is worth easily \$500 to the ton. The ore that we have seen is very rich in chalcocite of silver, and beautiful particles of copper carbonate.

Gideon Cornell, who has been attending to some mining matters in the Sandy country, in Mohave county, for several months, returned this afternoon. We have not bumped him yet.

Mr. G. R. Annand, also came in from that country where he is concerned in the erection of the McCracken mill.

No BLOOD.—Bancroft, formerly connected with the Enterprise, said this morning that some one of his former associates was bent on shooting him, and might accomplish it before night, but as yet we hear of no blood. "Blood is a bad omen," yet the air seems to be full of the smell of it.

The case of injunction, restraining Joseph Fugitt and Jack Johnson from working the Loreto mine, has been stopped. They have made a settlement of the disputed ground, which is satisfactory to both parties, and work will once more be pushed on the premises.

Mr. George Jackson, a staunch farmer from Walnut Grove, called on us to-day and informed us that some corn would be raised on the ranches where they can irrigate.

Judge C. T. Hayden, from Hayden's Ferry in Maricopa county, arrived in town yesterday. The Judge has a train en route from his place which will be here sometime during the next two or three days.

H. M. Herbert is from Bradshaw and reports the mountains as being very dry. Springs that heretofore have afforded plenty of water to run a dozen quartz mills now have dried up for watering a horse with its rider.

We learn from Mr. Wollenberg, of the firm of Asher & Co., that his beautiful, bright little boy, Albert, through the skill of Dr. Teale, is fast recovering from an attack of inflammatory dysentery, which is indeed good news.

Master Anthony Crow, who has recently accompanied his father on a trip to Salt River, at the crossing of Granite. The main sewer, which is to empty into Granite Creek where Goodwin street crosses it, will relieve the people of a disagreeable stench, which has annoyed them for some time, arising from the sewer that leads from Radcliffe's brewery. Frank calls it the Goodwin St. Canal, which discharges its freight at Hathaway's wharf.

LAW SUIT.—Mr. McClinton, who came down to the Territory some four months since with Mr. Wessels, then of the Black Warrior quartz, and brought suit in Justice Carter's Court, which was tried yesterday, to recover from Mr. W. the sum of \$184, claimed to be due him for wages since his arrival in the Territory. The case was tried by jury process, and they rendered a verdict of \$10 in favor of the defendant, Mr. Wessels, instead of giving plaintiff the \$184 asked for. Such is life.

RANK ORGANIZATION.

The "Bank of Arizona," which was incorporated under the laws of Arizona on the 2d of July last, to do business in Prescott, held its first meeting of stock-holders this morning at 10 o'clock, and organized by electing the following Board of Trustees, viz.: Samuel Lewis, Joseph May and Joseph Brandenstein, of San Francisco; Cal and Sol Lewis, R. W. Kales, John J. Gorpet and T. J. Butler, of Prescott.

The Trustees immediately afterwards elected Sol Lewis, President, and M. W. Kales, Cashier and Secretary, and will be fully ready to do business so soon as their new building, corner of Gurley and Cortez streets, now rapidly approaching completion, is ready to occupy.

The corporation is not yet ready to invite business for the want of facilities, but such as is absolutely necessary will be transacted in the office of Sol Lewis, in the rear of the bank until the bank is completed. This is an institution that has long been needed in Prescott, and one that will be not only a great convenience to the people but we hope profitable to the stock-holders.

R. E. Farrington.

This gentleman, well and favorably known in this section of Arizona, as well as in Los Angeles and San Bernardino counties, Cal, and who has been in the commission business following along with the S. P. R. R. until it reached Yuma, has concluded to establish himself at Ehrenberg, where he will be most happy to receive and ship goods for all parties in Northern Arizona. He has made arrangements with Miller Bros., whereby he will receive and ship all goods sent to their care. Mr. Farrington is relative to the letter, and we are satisfied will do everything in his power to forward goods with the least possible delay.

Our old friend, Dud Moreland, has got in a "side-wipe" at last. It happened thus: Dud is a good prospector and has great faith in the Tiger mine, in Bradshaw. He generally stays in the vicinity of the Tiger, and takes his daily strolls through the hills prospecting and killing venison for himself and Henry Herbert, his companion, and it was on one of these occasions that he gave a large ledge a kind of side-wipe with another rock, and found that he was the lucky discoverer of a rich gold and silver lead, which he straightway located for E. Cook and himself. It is not necessary to state that he named the rich strike "Side-Wipe."

THE DANCE LAST NIGHT.—Master Joe Curtis, with an able corps of Lieutenants, assistants and chiefs of departments, organized a juvenile dancing party at the City Hall, last night, which lasted until half past twelve this morning. The MINER office was gallantly represented by about half its capacity for youthful hilarity, which is saying considerable, for when they all turn out it insures quite a crowd of itself. This was not the largest party of the season but it was equal to any in real genuine enjoyment, and will be remembered, by those with pleasure, who took part in it, long after the more dignified assemblages of older people shall have been forgotten. We presume and hope our young friends will see that this will not be the last of this kind of enjoyable gathering, for such is our pleasure.

FOUR WHIPPLE THEATRE.—By reference to our advertising columns, it will be seen that we are to begin favored with a performance by the Whipple Company at their cosy little theatre. The play selected for next Wednesday evening—the date of the performance—is Tom Taylor's beautiful comedy, "Still Waters Run Deep." This is one of the standard comedies, and one which, as we believe, will test the merits of the Company. From the improvement in the members since the opening of the Theatre last January, we think they will successfully pass the ordeal, but if any of our readers doubt it, we advise them to be present next Wednesday, and judge for themselves. Our "devil" says he will see if they can play it, if he has to "hook in."

The last we heard from C. M. Daley, who "bilked" us, was that some good fellow at the Peak mine had given him a severe whipping, and he had left for Salt River and the South. Look out for Daley!

There is bad odor coming into our saloons from the South, and our devil suggests that it may be the fragrance passing from the body of John Watson, at Tucson. Can it be?

Mr. Walker, living west of Mr. Simons' farm, two miles from Prescott, lost one of his children yesterday, with inflammatory dysentery. The little child was buried today in the cemetery east of town.

Mr. A. O. Noyes, who had the contract for building the fence around the school-house, has completed the same, and is now putting a coat of paint on, which preserves the timber from the elements and beautifies the premises.

The case was tried by jury process, and they rendered a verdict of \$10 in favor of the defendant, Mr. Wessels, instead of giving plaintiff the \$184 asked for. Such is life.

NEW ADVERTISEMENTS.

We give our readers several new advertisements, H. H. Carter has a notice in reference to the estate of G. H. Wilson. Dan Thorne's "Kens," Assignees of Smith & Stearns, Phoenix, Rankin, Braxton & Co., of San Francisco Pacific Iron Works. The above are interesting to our readers.

A needed improvement is that which the workmen are engaged in under the direction of the Village authorities, in Goodwin street, at the crossing of Granite. The main sewer, which is to empty into Granite Creek where Goodwin street crosses it, will relieve the people of a disagreeable stench, which has annoyed them for some time, arising from the sewer that leads from Radcliffe's brewery. Frank calls it the Goodwin St. Canal, which discharges its freight at Hathaway's wharf.

George Young with 14 miles to each team, conducted by such men as John Moon, who has pulled the reins with care and successfully for the last 12 years in this Territory, during the bloody days of the Apache war, when it was dangerous to be safe arrived this morning and discharged his load over all over town.

Jerome Burns and Harry Barnard, who have a farm 20 miles west of the San Francisco Mountains and a fine stock ranch, in town after supplies. These gentlemen have both lived many years in the Territory, have traveled all over the country extensively and think the section they now live in superior to any known to them for stock raising and dairy purposes. They have fine potatoes and turnips growing, and expect a large yield, from the fact that the rain has visited them on several occasions, making everything green and fresh. Grass is excellent all through the range of mountains north and east of the Bill Williams range and there are a large number of herds scattered all over the hills.

Doctor Cronkite Assistant Surgeon of the United States Army for quite a long period, stationed at Camp Verde, is spending a few days with friends at Fort Whipple. His many friends shook him heartily by the hand on his arrival in town this morning.
